## New British Royal Society report proposes genocide

“The British Royal Society’s just-released *People and the Planet* report is a blueprint for genocide,” charged Citizens Electoral Council leader Craig Isherwood today. “What is being proposed here, under the guise of science and environmentalism, amounts to a mass cull of people that would make even Hitler roll in his grave.”

The April 2012 Royal Society report<sup>1</sup> is an unabashed call for the British Monarchy’s program of fascist austerity and genocide, as also long advocated by the Club of Rome, the International Panel on Climate Change, and Prince Philip’s World Wildlife Fund.

The report—the society’s first on the subject of population—comes in the midst of an intensive campaign by this international genocide lobby toward the Rio+20 International Conference on Population and Development in June, which drumbeat also includes a new Club of Rome report to be released on 7<sup>th</sup> May. According to advance reports in the *Smithsonian* magazine, the report will claim that the world’s “peak population” has been reached, and must go down from now on.

As for the Royal Society, in its more than 100 turgid, pseudo-scientific pages, the report’s authors argue that world population growth must stop, and that consumption by the populations in both the developed and emerging economies must be slashed, all in order to reach what they claim to be a “sustainable future”.

Called for comment<sup>2</sup> on the report, Dr. Paul Ehrlich of Stanford University, arch-genocidalist, author of the 1968 book *The Population Bomb*, and the man whom the *London Guardian* calls “the world’s most renowned population expert”, had nothing but praise for it, arguing that we must “as rapidly as possible move to population shrinkage”, down to perhaps 1.5-2 billion people.

Isherwood said the report of the Royal Society—whose patron is Queen Elizabeth II—is the British Crown’s response to the bankruptcy of their City of London-controlled financial system:

“The implementation of this depopulation policy,” Isherwood asserted, “is being fast-tracked in reaction to the rapidly collapsing global economic and financial system, a system inherently flawed ever since the 1971 dismantling of the post-war fixed exchange rate Bretton Woods system, and then the 1999 repeal of the Glass-Steagall standard of banking regulation, when speculation took off like a wildfire.

“Instead of winding back human consumption—a crucial element in the expansion of life on the planet—to match an economic system caught in the stranglehold of decades of de-industrialisation and deregulation, let’s reverse those policies and launch an economic recovery capable of supporting a new era of mankind’s development in the biosphere and in the Galaxy.

“This is precisely the fight the CEC has launched with its *Develop, or Die* resolution, a fight being echoed across the globe in the eruption of support for a new, global Glass-Steagall regime and grand economic development projects to power a global economic recovery. Join us in the CEC in bringing that vision into reality today!”

## RESOLUTION

# The Future of Australia: Develop or Die

### Whereas:

The presently ruling policies of globalisation, privatisation, deregulation and free trade, together with the enforcement of “environmentalist” policies so radical that they are best described as “green fascism”, are plunging the vast majority of Australians—along with most of the rest of the world—into poverty and misery; destroying our once-great nation; and eliminating any meaningful future for our children,

### Be it therefore resolved:

- 1) That the entire body of “globalist” economic reforms introduced by the Hawke-Keating régimes beginning 1983 and relentlessly extended since then, be scrapped, together with all the equally-murderous, radical environmentalist legislation enacted since that time;
- 2) That this nation return to the traditional protectionist, well-regulated form of agro-industrial economy under which we once flourished, typified by the agreement in outlook between “old Labor” as exemplified by ALP prime ministers John Curtin and Ben Chifley, on the one hand, and Country Party leader and longtime Trade and Industries Minister John “Black Jack” McEwen, on the other;
- 3) That we must re-regulate our national financial system upon two essential pillars:
  - a) the immediate separation of sound commercial banking which benefits the average Australian, from the speculative merchant banking activities which have grown like a cancer under financial deregulation, both in this country and worldwide and which have largely caused the present, ever-deepening global financial crisis; the well-known precedent for such a separation is the 1933 U.S. Glass-Steagall Act, which President Franklin Delano Roosevelt used to bring his nation and the world out of the Great Depression, and whose adoption is presently being debated in numerous countries around the world;
  - b) the immediate re-establishment of a new, government-owned national bank to provide credit for urgently needed great infrastructure projects as the engine to drive a great new renaissance in our agro-industrial, *physical* economy; we must have a sovereign Australian national *credit system*, not a London/Wall Street-controlled *monetarist system*, to enable us to secure the well-being of *all* Australians instead of just the privileged few, as under the present, monetarist system.
- 4) That we, the undersigned, will exert our utmost efforts to bring these reforms into reality, NOW!
